The vehicle warranty covers both labor and parts.

In addition, KALMAR warrants, to the original owner and in only the original approved application, that each new KALMAR Terminal Tractor mainframe will be free from defects in material or workmanship for a period of seven (7) years or twenty five thousand (25,000) hours. This mainframe warranty applies if, and only if: a) the tractor is being used by the original owner; b) the failure cannot be attributed to lack of routine maintenance; c) the tractor has not been involved in an accident; d) the tractor is being used in the original KALMAR Terminal Tractor approved application; e) the tractor has not been used in an application where the requirements of which are greater than the specification published at the time of manufacture; f) the tractor frame has not been modified by welding on, cutting into or drilling into the original structure.

The repair or replacement of defective parts or workmanship under the terms of this warranty will be made by KALMAR or a KALMAR Terminal Tractor authorized Parts and Service Dealer, without charge for parts or labor, if the defect occurs within the warranty period and if the returned parts are judged by KALMAR to be faulty or defective. All defects must be reported as soon as possible, but in no case later than fourteen (14) days after the owner first discovered such a defect or ought to have discovered the defect. If the owner fails to give notice of such a defect within fourteen days, the owner will lose its rights in respect of the defect. Any reported defect, shall be inspected and confirmed by technical personnel from an authorized Dealer or KALMAR. KALMAR will not honor invoices for parts purchased from outside sources, unless written authorization is first given by the KALMAR Terminal Tractor Product Support department. Further, KALMAR will not honor invoices for labor charges, unless the rate per hour charged and the number of hours involved are first authorized by KALMAR.

The obligation of KALMAR under this warranty is limited solely and exclusively to repairing or replacing, as KALMAR may elect, any part or parts which, upon examination, are determined by KALMAR or the supplier of the part to be defective in material and/or workmanship. Parts used to repair a Warrantable Failure may be new parts, approved remanufactured parts, or repaired parts. KALMAR is not responsible for failures resulting from the use of parts not approved by KALMAR. A new or approved remanufactured part used to repair a Warrantable Failure assumes the identity of the part it has replaced and is entitled to the remaining warranty coverage, if any.
